Nanotechnology Experiences for Students and Teachers (NEST) - for Students

Attention, High School freshmen, sophomores, juniors, and seniors!

Join us on a fascinating journey through the cutting-edge field of nanotechnology at a summer camp on the IUPUI campus.

- Engage in daily research and learning activities
- Work with world-renowned faculty
- Hands-on laboratory experience
- A $500.00 stipend is available to students who demonstrate a financial need, will be a first-generation college student, are 21st century scholars, or are from a high-need/socioeconomic school district
- Engage in faculty mentored academic year independent research
- Earn a college credit hour and enjoy the benefits of being college-student at IUPUI

Program Dates: June 18-June 29, 2018
